Quiz 1A Answers – Quiz based on 10 points

----

1. The `IDinner` interface has a `howMuch()` method, meaning that any class that implements `IDinner` much have a `howMuch()` method. However, the `Fishsticks` class does not implement this method.

Grading:
correctly identifies problem: 2 points
correctly identifies solution: 2 points

2.

KNOWN CLASSES | OBJECTS

```
    6

  "Pepper"
```

NAMED VALUES

EXPRESSION
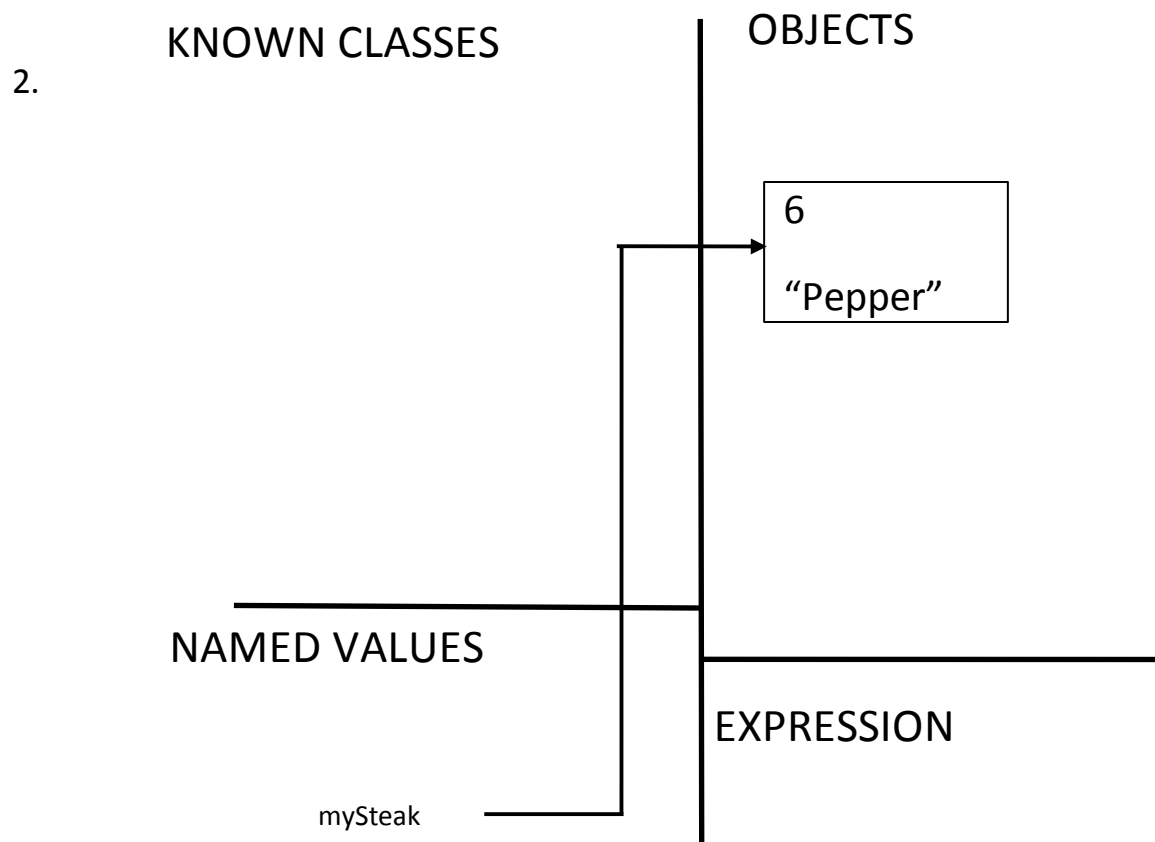

mySteak

Grading:
